TUPPER LAKE, NY -Volunteer members of TRAC will present the findings of research and field work that demonstrate the practical and cost effective retention of rails and a year-round trail system within and alongside the travel corridor, at the NYS DEC / DOT Scoping meetings on November 6 and 7 regarding the UMP review of the Remsen - Lake Placid Travel Corridor

TRAC volunteers will be available for media interviews following the formal structure of the meetings sponsored by New York State. Printed information materials and a series of maps will be available showing where the trail system can be built.
